

PIECE ON A POSTCARD

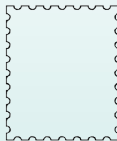

MFY is committed to making new music freely available to our network and to the wider musical world. During our 2012-13 season we will be commissioning six new works of which Piece on a Postcard is the first!

GETTING STARTED

These grooves can be used together or on their own. The notes with stems down should produce a low tone. You might do this by patting your stomach. The notes with stems up should produce a high sound such as a hand clap.
